PROJECT REPORT

(Project Term : Jan-April 2022)

RAILWAY RESERVATION WEBSITE

Submitted By:

SHIVANSH RANJAN

Registration Number : *12107367*

PRIYANSHU SINGH

Registration Number : *12109994*

Project Number: 07

Course Code: CSE326

Course Name: Internet Programming Laboratory

Under the Guidance of:

Md. Imran Hussain

Declaration

We hereby declare that the project work entitled “Railway Reservation Website” is an authentic record of our own work carried out as requirements of B. Tech degree in CSE with specialization in Data Science (Machine Learning and Artificial Intelligence) from Lovely Professional University, Phagwara, under the guidance of Md. Imran Hussain , during Jan to April 2022. All the information furnished in this project report is based on our own intensive work and is genuine.

Project Number : 07

Name of Student 1: ***SHIVANSH RANJAN***

Registration Number: ***12107367***

Name of Student 2: ***PRIYANSHU SINGH***

Registration Number: ***12109994***

ACKNOWLEDGEMENT

Apart from my efforts, the success of this project depends largely on the encouragement and guidelines of many others. I take this opportunity to express my gratitude to the people who have encouraged me in the successful completion of this project.

I express my heartfelt gratitude to my parents for constant encouragement while carrying out this project.

I gratefully acknowledge the contribution of the individuals who contributed in bringing this project up to this level, who continues to look after me despite my flaws. I am overwhelmed to express my thanks to The Administrative Officer for providing me an infrastructure and moral support while carrying out this project in the University.

Sincere thanks to my Computer Science teacher, who critically reviewed my project and helped in solving each and every problem, occurred during implementation of the project and also helped me with the problems that I faced in class during the lecture.

The guidance and support received from all the members who contributed for the success of the project. I am grateful for their constant support and help.

INTRODUCTION

Internet has widely grown in the recent century and become the necessity. The popularization of internet has encouraged E-Ticket booking, and more and more people now book tickets online.

Electronic tickets, more popularly known as e-Tickets, are the digital equivalent of paper tickets. Earlier, passengers had to go to PRS booking centers of Indian Railways and fill up a reservation form to reserve seats and obtain paper tickets. However, with the advent of technology and digitalization, Indian Railways has introduced the facility of paperless electronic tickets aka e-Tickets for passengers. Today, you can book e-Tickets online through your computers or smart phones from the comfort of your home provided that you have access to the internet. You can also cancel your e-Tickets, change the boarding point, transfer it to a family member, and avail a number of other services related to e-Ticket booking.

This e-Ticket booking website is the practical implementation of booking the railway ticket through the internet for the ease of people. We get the flexibility and enhanced system to check the availability of the ticket in a particular train and on a specific date.

This webpage can be implemented using various technologies such as HTML , Python , Java and so on.

This webpage is made using HTML , CSS and JavaScript.

SCOPE OF THE PROJECT

The major objectives for carrying out the research work are:

- To solve the problem of travelling and booking the tickets
- To get to know the information of every train on any dates.
- To get to know the availability of seats and the running status of the train.

Scope of Railway Reservation Website:-

The scope of the Railway Reservation Website is to allow customers to book their reservations online via website or app instead of going to counter for booking the tickets. This feature helps people in many ways. It saves the time of travelling to the booking counters and hence saves energy. It is at the convenience of your phone or laptop, you can book ticket just by logging in to the website in your phone or laptop at the ease of internet.

WEBSITE SCREENSHOTS...

Index Page: It is the opening page of the website. On clicking "Continue to Website" you can go to the homepage of the website. This page also has an audio message.

HomePage(screenshot 1): This is the main page of the website after the index page, for booking tickets.

Holiday Packages

Maharaja's Express
Redefining Royalty. Luxury and Comfort. Maharaja's express takes you on a sojourn to the era of bygone stately splendour of princely states. Sublime furnishings, elegant ambience and

International Packages
Best deals in International Holiday packages, handpicked by IRCTC for Thailand, Dubai, Sri Lanka, Hong Kong, China

Domestic Air Packages
Best deals in Domestic Air packages, handpicked by IRCTC for Thailand, Dubai, Sri Lanka, Hong Kong, China

HomePage(screenshot 3): Here you can see the "Holiday Packages" , International and domestic package, and some info about the Maharaja's Express.

The screenshot shows a web browser window with the URL 127.0.0.1:5500/Homepage.html#boxes. The page has a dark header with a logo and navigation links. Below the header, there are three main sections:

- Maharaja's Express:** An image of a red train carriage with "MAHARAJA'S EXPRESS" written on it. Below the image is a brief description: "Redefining Royalty, Luxury and Comfort, Maharaja's express takes you on a sojourn to the era of bygone stately splendour of princely states. Sylvan furnishings, elegant ambience and modern amenities are amalgamated for an "Experience Unsurpassed". It has been a winner of "World's Leading Luxury train" by World Travel Awards consecutively for last six years." A "Read More" button is at the bottom.
- International Packages:** An image of a golden Buddha statue in a temple. Below the image is a brief description: "Best deals in International Holiday packages, handpicked by IRCTC, for Thailand, Dubai, Sri Lanka, Hong Kong, China, Macau, Bhutan, Nepal, UK, Europe, USA, Australia etc. The packages are inclusive of sightseeing, meals, visa charges and overseas medical insurance to give you a hassle-free and memorable experience." A "Read More" button is at the bottom.
- Domestic Air Packages:** An image of snow-capped mountains. Below the image is a brief description: "Best deals in International Holiday packages, handpicked by IRCTC, for Thailand, Dubai, Sri Lanka, Hong Kong, China, Macau, Bhutan, Nepal, UK, Europe, USA, Australia etc. The packages are inclusive of sightseeing, meals, visa charges and overseas medical insurance to give you a hassle-free and memorable experience." A "Read More" button is at the bottom.

Below these sections is a yellow banner with the text "Follow us on :" and social media icons for Facebook, Twitter, and Instagram. At the bottom of the page are "Menu" and "Subscribe our mail" buttons.

HomePage(screenshot 4): The screenshot shows the link of Facebook, Instagram and Twitter handle of the company and also to subscribe to the mail.

The screenshot shows a web browser window with the URL 127.0.0.1:5500/Homepage.html#boxes. The page structure is similar to screenshot 3, but the footer is more detailed:

Menu: Home, About Us, Contact Us, Booking, Login.

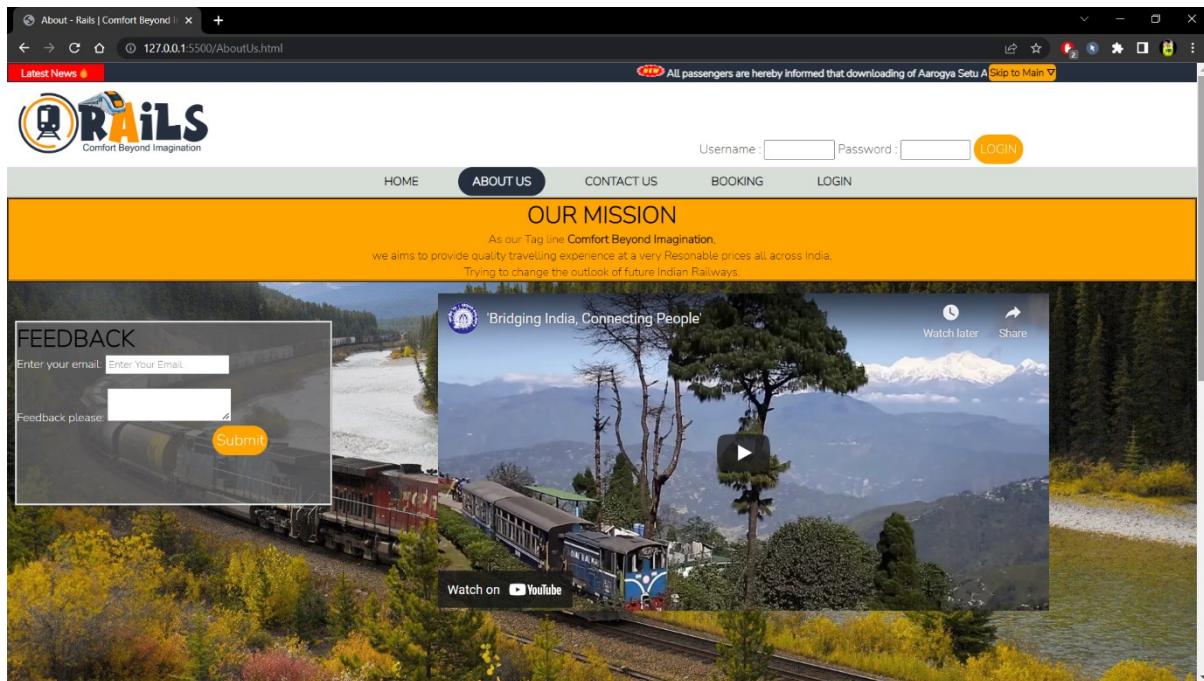

Subscribe our mail: A form with a "Subscribe" button. Below the form is a note: "Whether you are just getting started and looking for more information or you want to set up a hassle-free consultation, we are here to help!"

RAILS: The company logo with the tagline "Comfort Beyond Imagination".

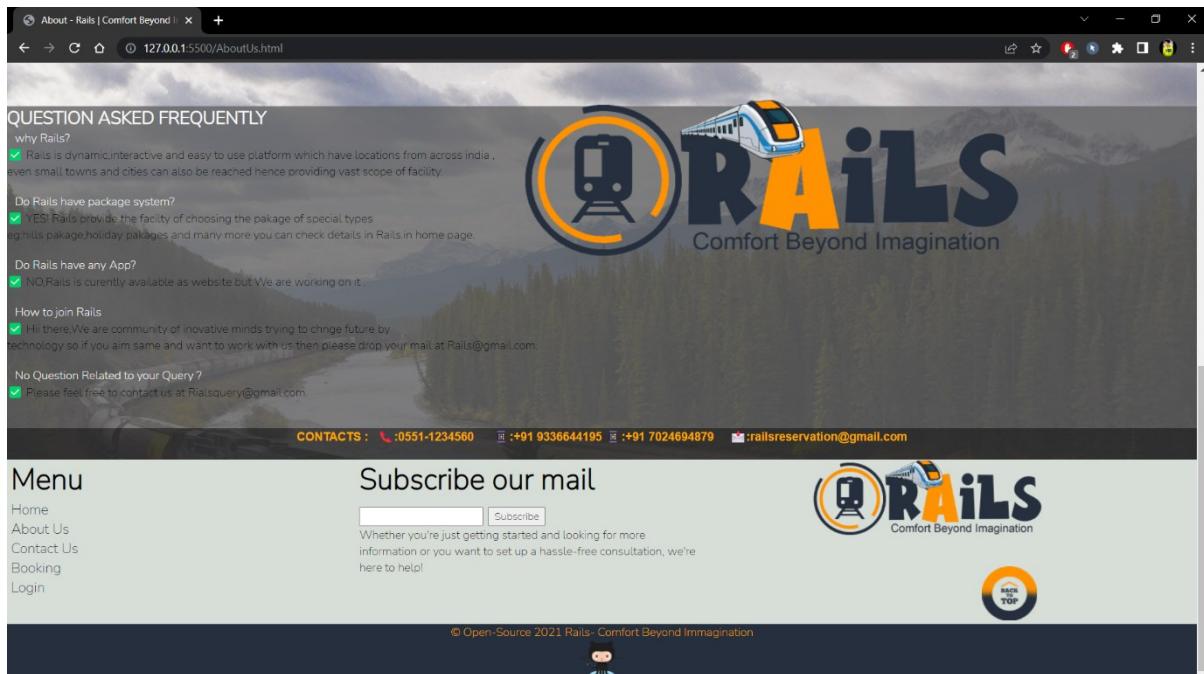

BACK TO TOP: A circular button with the text "BACK TO TOP".

At the very bottom of the page is a copyright notice: "© Open-Source 2022 Rails- Comfort Beyond Imagination".

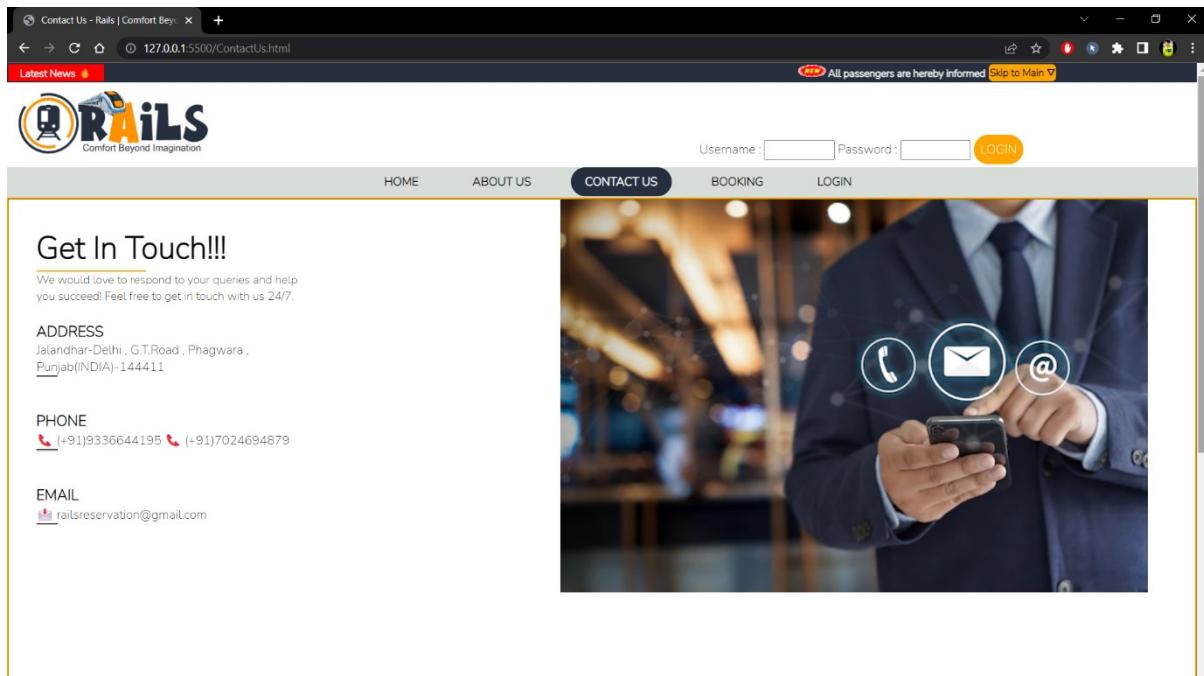

About Us(screenshot 1): Information about the company/website.

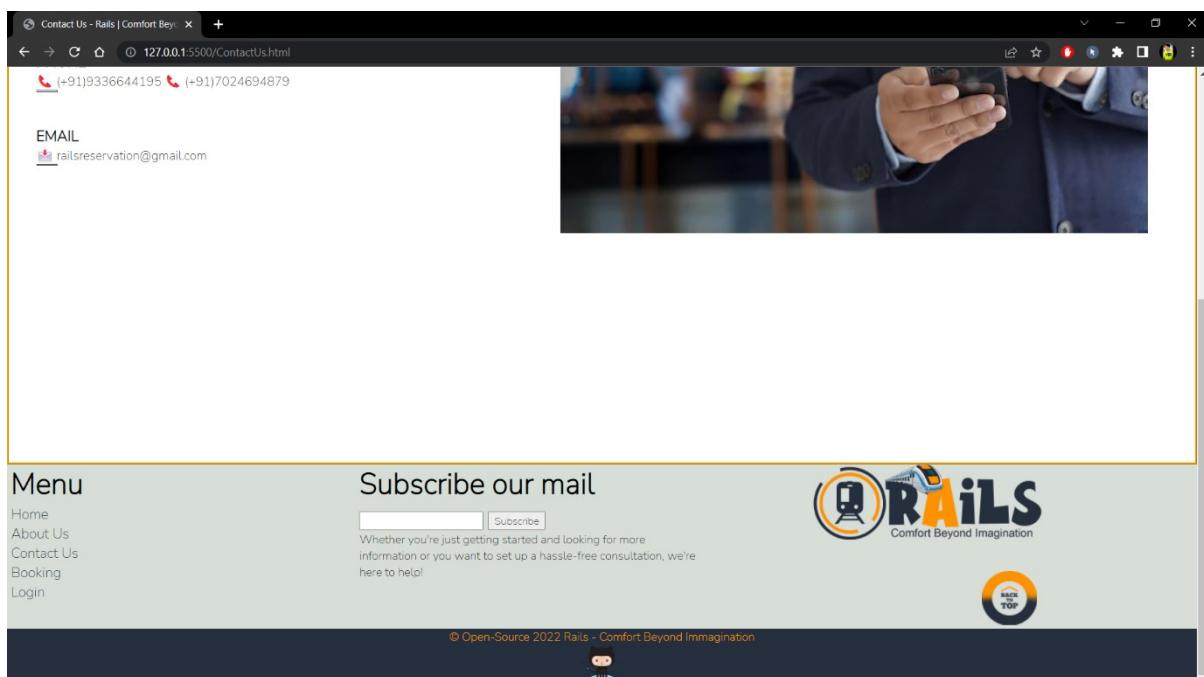

About Us(screenshot 2): The frequently asked questions by the users displayed here.

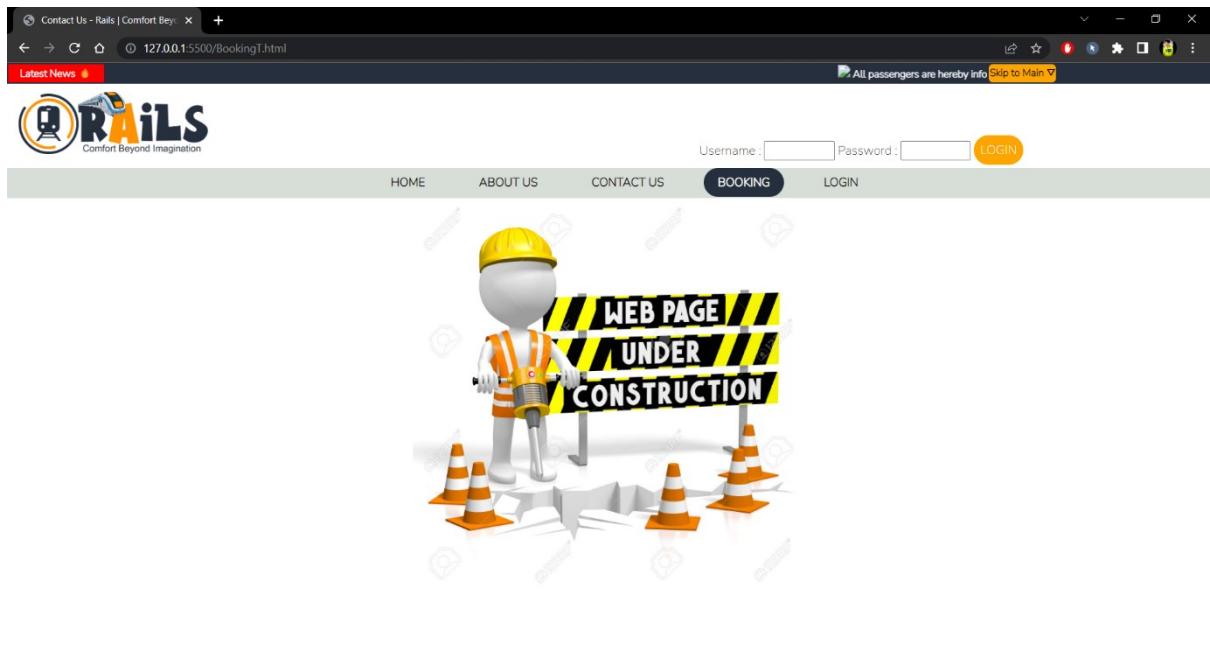

Contact Us(screenshot 1): The contact of the company so that you can directly get in touch with the company.

Contact Us(screenshot 2)

Booking: This page is to see your booked tickets from this website. This page is currently Under Construction.

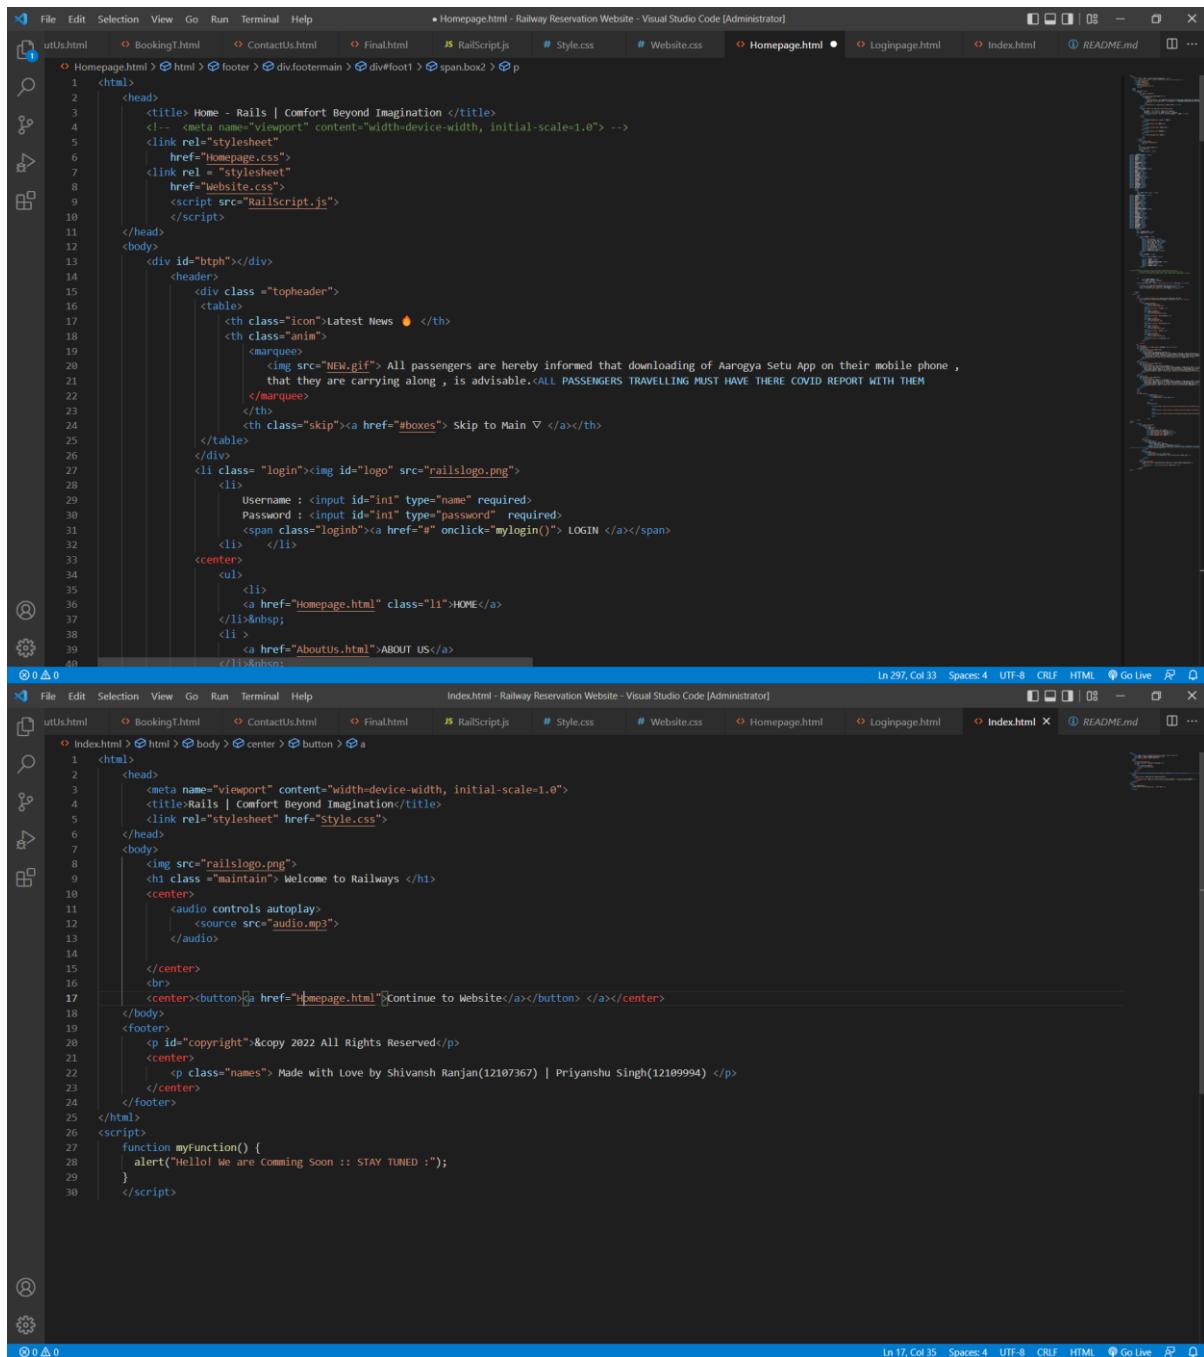

Login: From here you can login into the website. This page is not done completely.

CODE IMPLEMENTATION..

HTML Part:-

The image shows two instances of Visual Studio Code side-by-side, both displaying HTML files for a Railway Reservation Website.

77
78 <div id="last" ><h2>QUESTION ASKED FREQUENTLY</h2>
79 Why Rails?
80 <p>Rails is dynamic,interactive and easy to use platform which have locations from across india ,
81 even small towns and cities can also be
82 reached hence providing vast scope of facility.</p>
83

84 Do Rails have package system?
85 <p>Yes! Rails provide the Facility of choosing the pakage of special types
eg:hills pakage,holiday pakages and
86 many more you can check details in Rails.in home page.</p>

87 Do Rails have any App?
88 <p>No,Rails is currently available as website but we are working on it .</p>

89 How to Join Rails:
90 <p>Hi there,We are community of innovative minds trying to chnge future by
technology so if you aim same and
91 want to work with us then please drop your mail at Rails@gmail.com.</p>

92 No Question Related to your Query
93 <p>Please feel free to contact us at Rialsquery@gmail.com.</p>

In 21, Col 29 Spaces: 4 UTF-8 CRLF HTML ⚡ Port: 5500

A screenshot of Visual Studio Code showing the code for `Final.html`. The file contains the following HTML:

```
1 <html>
2   <head>
3     <title> Ticket Booking </title>
4     <link rel="stylesheet"
5       href="website.css">
6   </head>
7
8   <body>
9
10  </body>
11 </html>
```

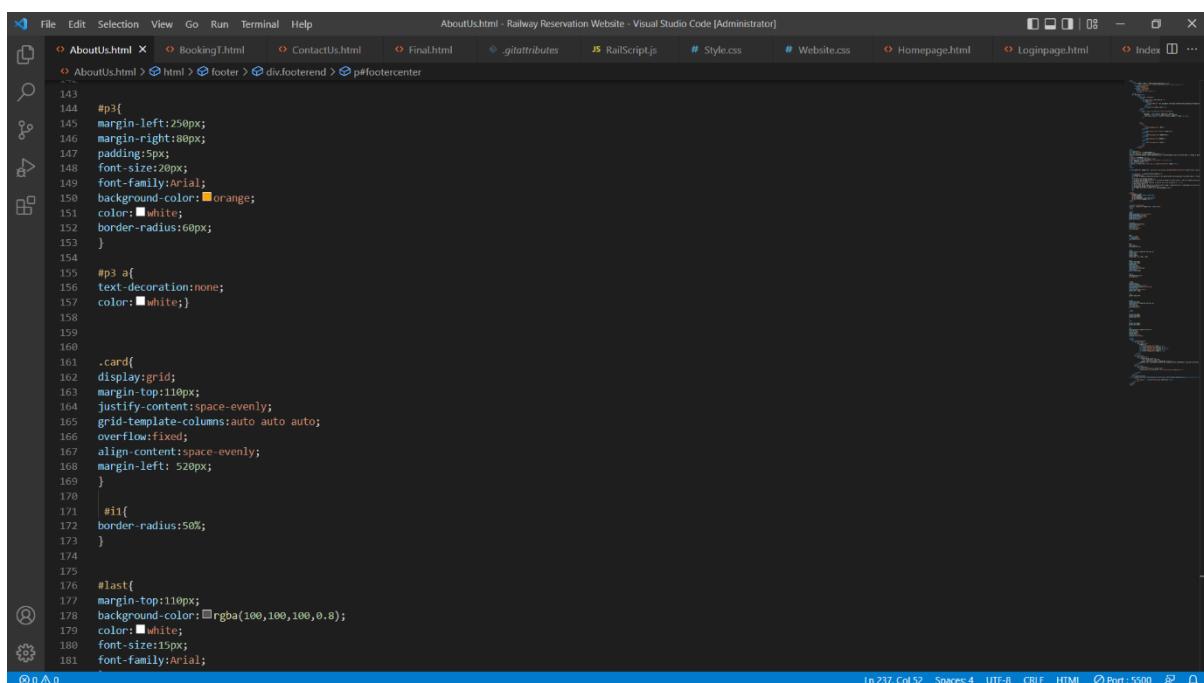

The code editor shows syntax highlighting for HTML tags. The status bar at the bottom indicates the file is saved, with "Ln 3, Col 17" and "Spaces:4". It also shows "UTF-8", "CRLF", "HTML", "Port : 5500", and icons for refresh, save, and close.

CSS Part:-

A screenshot of Visual Studio Code showing the CSS code for the footer section of the AboutUs.html file. The code includes styles for a background image, font sizes, colors, and a form element.

```
114 <style>
115 .pbg{
116     background-image: url("train.jpg");

310     width: 400px;
311 }
312 #findtrain
313 {
314     margin-left: 390px;
315 }
```

```
# Homepage.css
# Homepage.css > .mybookform button a
302     margin-left: 350px;
303     margin-top: 40px;
304 }
305 #ab
306 {
307     color: white;
308 }
309 #ba
310 {
311     width: 400px;
312 }
313 #findtrain
314 {
315     margin-left: 390px;
316 }
```

The screenshot shows the Visual Studio Code interface with the 'Style.css' file open. The code defines various CSS rules for a website, including font styles, background images, and button styles. The interface includes a left sidebar with icons for file operations, a top navigation bar with tabs for different files, and a bottom status bar showing line, column, and character counts.

```
# Style.css > ↗ a
# Font-face {
  font-family: Eighty-Eight;
  src: url('Eighty-Eight.ttf');
}
.maintain {
  color: #orange;
  text-align: center;
  margin-top: 10px;
  font-family: Minercraftory;
  font-size: 35px;
}
body {
  background-image: url("https://upload.wikimedia.org/wikipedia/commons/b/b9/WDM_3D_class_locomotive_of_Indian_Railway.jpg");
  background-repeat: no-repeat;
  background-size: cover;
}
img {
  border-radius: 400px;
  width: 350px;
  display: block;
  margin-left: auto;
  margin-right: auto;
}
.names {
  background-color: #orange;
}
#copyright {
  color: #orange;
  margin-top: 220px;
  text-align: center;
}
button {
  background-color: #252F3E;
  border: none;
  color: #white;
  padding: 15px 32px;
  text-align: center;
  text-decoration: none;
}
```

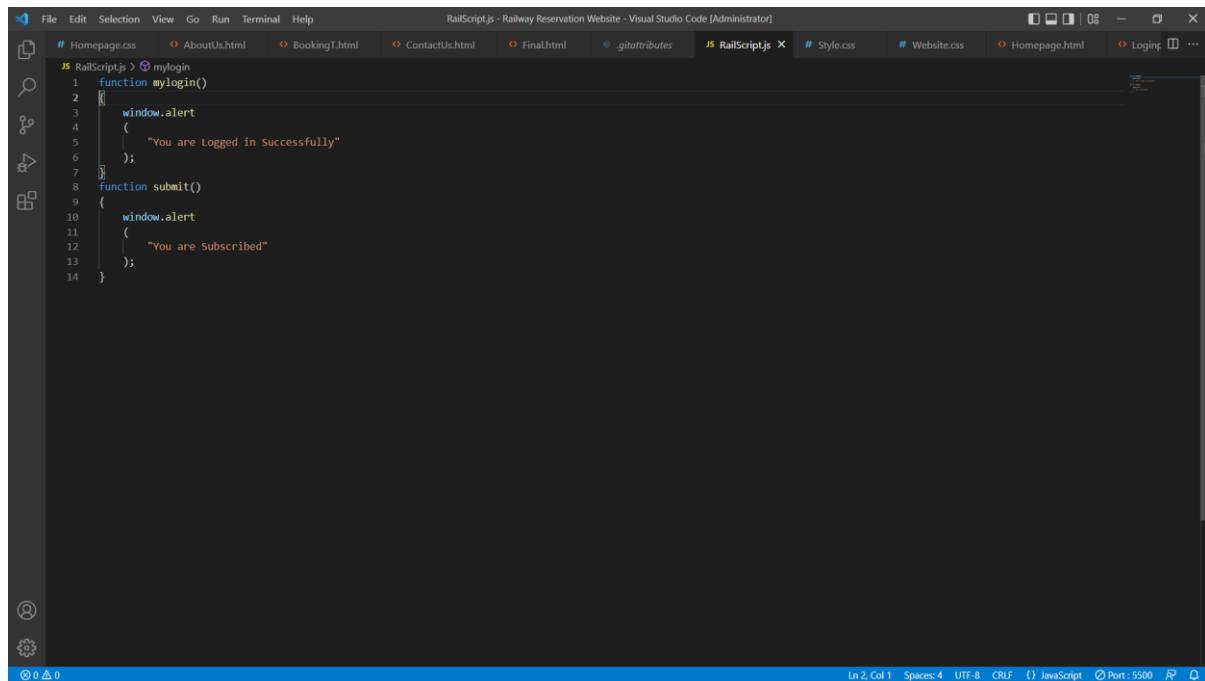

This screenshot shows the same Visual Studio Code interface as the first one, but with the cursor positioned at line 48. The code content is identical to the first screenshot.

```
# Style.css > ↗ a
# Font-face {
  font-family: Eighty-Eight;
  src: url('Eighty-Eight.ttf');
}
.maintain {
  color: #orange;
  text-align: center;
  margin-top: 10px;
  font-family: Minercraftory;
  font-size: 35px;
}
body {
  background-image: url("https://upload.wikimedia.org/wikipedia/commons/b/b9/WDM_3D_class_locomotive_of_Indian_Railway.jpg");
  background-repeat: no-repeat;
  background-size: cover;
}
img {
  border-radius: 400px;
  width: 350px;
  display: block;
  margin-left: auto;
  margin-right: auto;
}
.names {
  background-color: #orange;
}
#copyright {
  color: #orange;
  margin-top: 220px;
  text-align: center;
}
button {
  background-color: #252F3E;
  border: none;
  color: #white;
  padding: 15px 32px;
  text-align: center;
  text-decoration: none;
}
```

```
# Homepage.css > # .child
# Website.css > # .child
1 form {
2     width: 500px;
3     margin-left: 900px;

51     vertical-align: top;
52 }
53 ]
54 .fchild img{
55     height: 500px;
56 }
57 .fhead{
58     border: ridge #orange;
59 }
```

JavaScript Part:-

The screenshot shows a Visual Studio Code interface with a dark theme. The title bar reads "RailScript.js - Railway Reservation Website - Visual Studio Code [Administrator]". The left sidebar shows files like Homepage.css, AboutUs.html, BookingT.html, ContactUs.html, Final.html, .gitattributes, RailScript.js (which is the active tab), Style.css, Website.css, Homepage.html, and Logging. The main editor area contains the following JavaScript code:

```
# RailScript.js > mylogin()
1 function mylogin()
2 {
3     window.alert
4     (
5         "You are Logged in Successfully"
6     );
7 }
8 function submit()
9 {
10    window.alert
11    (
12        "You are Subscribed"
13    );
14 }
```

The status bar at the bottom shows "Ln 2, Col 1" and "Spaces: 4" and "JavaScript".

- Took help from this video too :
[Railway Ticket Reservation Form by using |
HTML | CSS | BOOTSTRAP - YouTube](https://www.youtube.com/watch?v=JyfzXWVQHgk)

CONCLUSION

The RAILWAYS RESERVATION WEBSITE is a project done by us to help people to book tickets on the internet by phone, laptop etc.

The various features included in the website make each user to use the website in an easier and more efficient way. The designing part of the website makes website more attractive to the users. After doing this project we are able to recognise the future requirements, knowledge about HTML coding, CSS and JavaScript. Almost all the required features have been made available in the website within the stipulated time. Although some page is still under construction and we will work more on it in the future.

THANK

YOU
